

Schoolmaster District Edition / School Edition

Initial Training

System training is a requirement. The Schoolmaster District System Manager and key site operators learn system basics—delivered by interactive Web-training or onsite training—under the direction of our expert trainers. We can help you design the best training option for your implementation and budget.

Continuing Education

You will look forward to our annual training events held at convenient locations throughout the country. These popular gatherings provide a forum for sharing new applications, technologies, and ideas.

Onsite Training Service is also available. Our expert trainers will visit your district and work with you to develop a customized training curriculum.

**To arrange for an interactive
Web-based demo, call us at
800/733-0922**

Minimum System Requirements

ASP Deployment

- High-speed (T-1 or better) and stable Internet access

WAN/LAN Deployment

- 1000 Mbit/sec Ethernet at the server; switched to subnets
- 100 Mbit/sec Ethernet to each subnet (school)
- 10 Mbit/sec Ethernet to each client (workstation)
- For wireless infrastructure, actual throughput should be measured at the application level, not the manufacturer's hardware specifications.

Servers

- Windows 200x ~ Pentium IV (or better) 1 Ghz ~ 1 GIG RAM
- Web Server: Windows 2003+ (Cannot be the domain controller)

Workstations

- PC: Windows XP Pro / Windows 7
- Macintosh: G4; Mac OS X 10.4 (or higher)
- Web Classroom: MS IE 7+ / Firefox V 2+ / Chrome / Safari

Laser Printer

HP compatible ~ Local or network connection ~ Non-printing margins not exceeding .5" at top and bottom and .25" at left and right sides are required

Data Backup

It is the customer's responsibility to use adequate backup and restore procedures on the server where the Schoolmaster data files are located (e.g., Tape, CD-RW, DVD, etc.)

SmartPhones

Support for Admin app (iPhone, Android, Blackberry, Win Mobile)

Internet Access

The district office and sites should have high-speed access to the Internet for access to Schoolmaster Web site, retrieval of updates and e-mail communication (e.g., T-1 or better)
